

THE PROBLEM:

America has a gun violence epidemic that is unique in the world. We haven't been able to work toward a solution because we are stuck in a cycle of inaction. A frenzy of demand for change, a polarized public debate, a shift in focus to whatever is next.

The world wants a silver bullet we can rally around. But in reality, it's a web of interrelated issues, each needing to be addressed and targeted for change.

Legislative Issues:

State Reciprocity Laws - Assault Weapons Ban (+Bump stocks) - Banning Concealed Carry - Taking on the NRA - Universal Background Checks - 3-Day Waiting Period - Eliminating loopholes for gunshots and private sales - Raising the age for gun purchase - Ban sales to convicted stalkers + violent criminals - Ban sales to people with background of mental illness

Contributory Issues:

Suicide by Gun - Domestic Violence - Gun Accidents Among Children
Cultural Glorification of Violence - Gun Buy-Back Program
Racial Profiling + Police Violence
Social Media Around Guns and Gun Violence

THE BRIEF:

With so many issues, we need many silver bullets.

This is not about finding one big, innovative, disruptive idea; it's about finding another, and another, and another, and another. You are the creative force who will keep the pressure on. Who will make sure momentum is never lost. To solve this problem, we must overwhelm the problem.
So that's what we're going to do.

There are no categories. There are no fees. If you come up with a good idea, go online and submit it. No physical materials need to be sent.
All entries will be judged digitally.

We need your help. Let's make a change.

A creative force dedicated to ending gun violence.
